**Open Call Project**

# **‘Social Dive’**

**Social Dive is an open call project inviting artists to immerse themselves in the city of Chiba, Chiba Prefecture, Japan. Through their artistic practice, participants will discover the city's unique charms and value new creations. The mission of this project is to "dive" actively into the community and establish deep connections with local residents. As part of this initiative, each artist will be provided with a city-based arts facility to serve as their primary creative hub.**

**To shed light on the city's rich history, culture, and diverse perspectives, we seek artists with the creativity and methodology of community art or socially engaged art, which foster relationships with others.**

**Successful applicants will be expected to demonstrate originality and vitality throughout the entire creative process. The Chiba City Arts Triennale 2025 will provide comprehensive support for these projects.**

**We encourage applications from ambitious artists working in a variety of disciplines, including art, design, performance, media art, photography, music, and art projects.**
